

Joi McMillon RN, BSN, MBA HA, CRRN, WCC, CIC, CJCP, HACP-CMS has served in Post-acute Nursing Administration for 24 years. She holds certifications as a Certified Infection Control Nurse, Certified Rehabilitation Registered Nurse, Certified Wound Care Nurse Certified Joint Commission Professional, and Healthcare Accreditation Certified Professional-CMS.

In the 31 years in the nursing field Mrs. McMillon has led organizations to clinical excellence by using a comprehensive approach to success by utilizing her passion for nursing by applying evidence-based practices and continuous improvement strategies. 30 years of experience in infection control and regulatory compliance. In 2007 she founded **J.A.D. Higher Expectations LLC** with the goal of providing high quality education to health care organizations that lacked adequate resources to employ a full-time educator. Her strategies in the management of COVID-19 have gained recognition by the Department of Health for the programs put in place as a model for post-acute infection control programs.

She has provided survey preparedness services for both CMS and The Joint Commission surveys. Post survey plan of correction assistance. Follow-up consultations to ensure the level of compliance is upheld. Outbreak management and contact tracing of residents and employees has been critical in freeing up the facility staff to concentrate on the continuous demand that exists now that the PHE has ended, the facilities are struggling with the staffing needed to remain compliant. She focuses on Quality Improvement Initiatives providing facilities the needed assistance. She has done contract work as a CMS Quality Advisor.

She has coached Executive Clinical personnel to be successful in their roles, and lead with accountability, compassion, and professionalism. She has also served as a coach and a mentor for Infection Preventionists new to their roles in their organization.

She has facilitated the instruction of American Heart Association B.L.S. to health care practitioners in all settings, as well as community benefit engagements.
